

# Brooklyn Community Services Family Therapy Program

Transforming families through counseling,  
case management, and conflict resolution

**BCS envisions ONE Brooklyn Community where all families have the resources and tools to maintain strong, safe, and nurturing families.**

## Common Struggles Facing Families

**Families come to us** with conflicts within their marriage, partnership, family members, children's social-emotional challenges, or issues at school. Often families are coping with trauma, illness, loss, family changes, or transitions, and disconnection and support.

## Our Services

**Our range of services to support families includes:**

Family Therapy, Coaching and Strengthening Parenting Skills, Group Sessions with Parents, Children and Teens, Client Advocacy, and Case Management Support.

**We partner with families** to set clear goals for change and embrace their uniqueness so they can draw from their strengths and abilities. In family meetings, individuals experience real change rather than just talking about it.

**We equip families** with the support that they need to find new ways of connecting and responding to the stress around them.

## Our Results

- » Parents and caregivers are more confident and less frustrated
- » Children are happier, more respectful, and set up for success
- » Relationships within the household and community are more satisfying
- » Relationships with workers and agencies in the family's life are more useful to them

**BCS envisions ONE Brooklyn Community where all members of our community can access an excellent education, job opportunities, safe and affordable housing, and quality and affordable health care and wellness programs.**
